iPhone — SAFARI · 3 STEPS

1. Open the invite link in **Safari**.
2. Tap **Share**, then **Add to Home Screen**. Open the app from that new icon.
3. Go to **Hangar**, tap **Join with a code**, enter the code from the text and your name.

Why the extra step? iPhone keeps home-screen apps separate from Safari. Join from the icon, or your progress stays stuck in the browser.
